## Swarovski crystal encrusted silk scarves

An exiting sparkling range

Each motive in my hand painted silk scarves is available encrusted with **original Swarovski crystals**. They have been permanently applied on the silk through a special process with heat glue. There are eleven different colours plus clear. Sizes of the crystals are 3, 4 & 5 mm in the coloured stones and 3, 4, 5 & 6 mm in the clear ones. The amount, sizes and colours of crystals applied on a scarf depend on the motive.

With the movement of the silk the crystals are catching the light easily and are coming to live beautifully.
